## Ravensworth Complex Values

Our Values are the fundamental principles by which we conduct our business and are incorporated into all areas of Glencore Corporate Practice.

- 1 SAFETY
- 2 ENTREPRENEURIALISM
- 3 SIMPLICITY
- 4 RESPONSIBILITY
- 5 OPENNESS

The Opencut is currently progressing to a steady state, as it develops its boxcut towards the basal "Barrett" seam. The operation will be 270m deep, and 3km wide, producing approximately 14Mtpa ROM coal and approximately 60Mbcm waste annually. Mining methods, utilise a large ultra-class fleet of hydraulic shovels, excavators and rear dump trucks. All coal mined is processed through the CHPP for washing with all coal exported through the Port of Newcastle.

## Community

The Ravensworth Complex is committed to on-going open and honest communication with the local community and other stakeholders. We actively seek to engage and consult the community to provide information relating to the environmental, social and operational performance of the mines and enable the community to provide feedback. Members of the local community are encouraged to contact us to raise any concerns they may have.

Our broad community programme, which includes donations, sponsorship and in-kind assistance for a range of environmental, community and educational initiatives, demonstrates our on-going support for the local community.

Ravensworth continues to support local communities including projects such as Pictures in the Park, tree planting day and site family open day.
