

# Building a Leading Gold Company Through Responsible Mining

An aerial photograph of a mining site. A large group of workers, many wearing orange safety vests and yellow hard hats, are standing in a large circle on a gravel area. In the background, there are several buildings, including a white one with a blue roof, and a long white structure with a curved roof. A white van with the license plate 'LBA 7189' is parked in the foreground. The text 'LUNDINGOLD' is overlaid on the image.

**LUNDINGOLD**

Corporate Presentation  
May 2019

# Disclaimers

All statements, other than statements of historical fact, made and information contained in this presentation and responses to questions constitute “forward-looking information” or “forward-looking statements” as those terms are defined under Canadian securities laws ( “forward-looking statements”). Forward-looking statements may be identified by terminology such “believes”, “anticipates”, “expects”, “is expected”, “scheduled”, “estimates”, “pending”, “intends”, “plans”, “forecasts”, “targets”, or “hopes”, or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “will”, “should” “might”, “will be taken”, or “occur” and similar expressions).

By their nature, forward-looking statements involve assumptions, inherent risks and uncertainties, many of which are difficult to predict, and are usually beyond the control of management, that could cause actual results to be materially different from those expressed by these forward-looking. Lundin Gold believes that the expectations reflected in these forward-looking statements are reasonable as of the date made, but no assurance can be given that these expectations will prove to be correct. In particular, this presentation contains forward-looking statements pertaining to: timing of first gold production and commercial production, scheduling, the receipt of permits, licences and other regulatory approvals, gold and silver price and exchange rate assumptions, cash flow forecasts, projected capital and operating costs, metal or mineral recoveries, mine life and production rates, the Company's potential plans and operating performance, changes to the mine plan, the estimation of mineral reserves or the tonnage, potential production from and viability of the Company's Project, access to funding, the terms of the Company's smelting contracts, performance of the Company's contractors, construction and infrastructure development.

There can be no assurance that such statements will prove to be accurate, as Lundin Gold's actual results and future events could differ materially from those anticipated as a result of the factors discussed in the "Risk Factors" section in Lundin Gold's Annual Information Form dated March 27, 2019, which is available on SEDAR at [www.sedar.com](http://www.sedar.com). Forward-looking information should not be unduly relied upon.

The technical information contained in this presentation relating to the Fruta Del Norte Project is based on a Technical Report prepared for the Company entitled “Fruta del Norte Project, Ecuador, NI 43-101 Technical Report on Feasibility Study” dated June 15, 2016 with an effective date of April 30, 2016 (the “Technical Report”). Information of a scientific and technical nature in this presentation was reviewed and approved by Ron Hochstein, P.Eng., Lundin Gold's President and Chief Executive Officer, and Stephen Leary, MAusIMM CP(Geo), an independent consultant to Lundin Gold, both of whom are Qualified Persons within the meaning of National Instrument 43-101 - Standards of Disclosure for Mineral Projects (“NI 43-101”).

Unless otherwise indicated, all dollar values herein are in US dollars.

## **Important Information for US Investors**

This presentation may use the terms “measured”, “indicated”, “inferred” and “historical” mineral resources. U.S. investors are advised that, while such terms are recognized and required by Canadian regulations, the Securities and Exchange Commission does not recognize them. “Inferred mineral resources” and “historical estimates” have a great amount of uncertainty as to their existence and great uncertainty as to their economic feasibility. It cannot be assumed that all or any part of an inferred mineral resource or a historical estimate will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or other economic studies. Further, historical estimates are not recognized under Canada's NI 43-101. U.S. investors are cautioned not to assume that all or any part of measured or indicated mineral resources will ever be converted to mineral reserves.

This presentation is not an offer of securities for sale in the United States or in any other jurisdiction. The Company's securities have not been and will not be registered under the United States Securities Act of 1933, as amended and may not be offered or sold within the United States absent registration or an application exemption from registration.

# Fruta del Norte Next Major Gold Mine Going Into Production

First gold expected Q4 of this year

World class asset - probable reserves of 5.02 million ounces grading 8.74 g/t Au<sup>1</sup>

Project is fully funded - capex 84% committed<sup>2</sup>

Total underground advance ahead of target

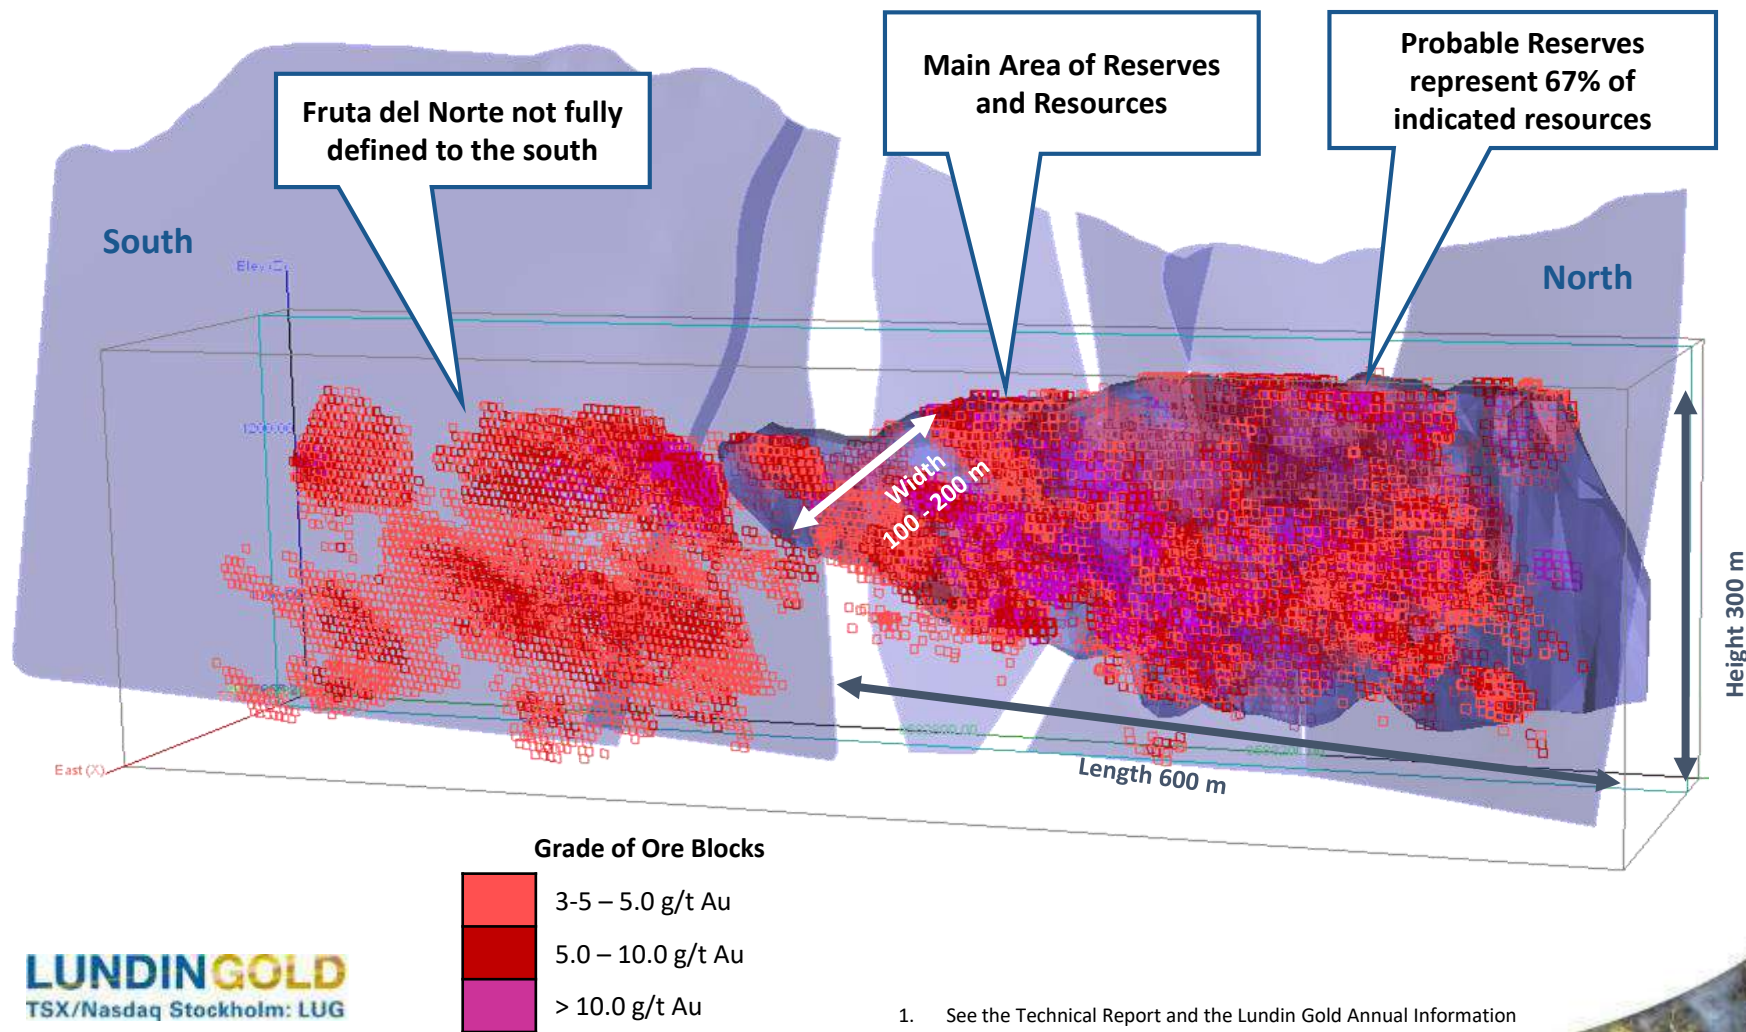

On schedule and on budget - construction 65% complete<sup>2</sup>

Fruta del Norte within a major under explored mineralized trend

# Lundin Gold Developing a World Class Foundational Asset

- Probable reserves of 5 million ounces at 8.74 g/t Au<sup>1</sup>

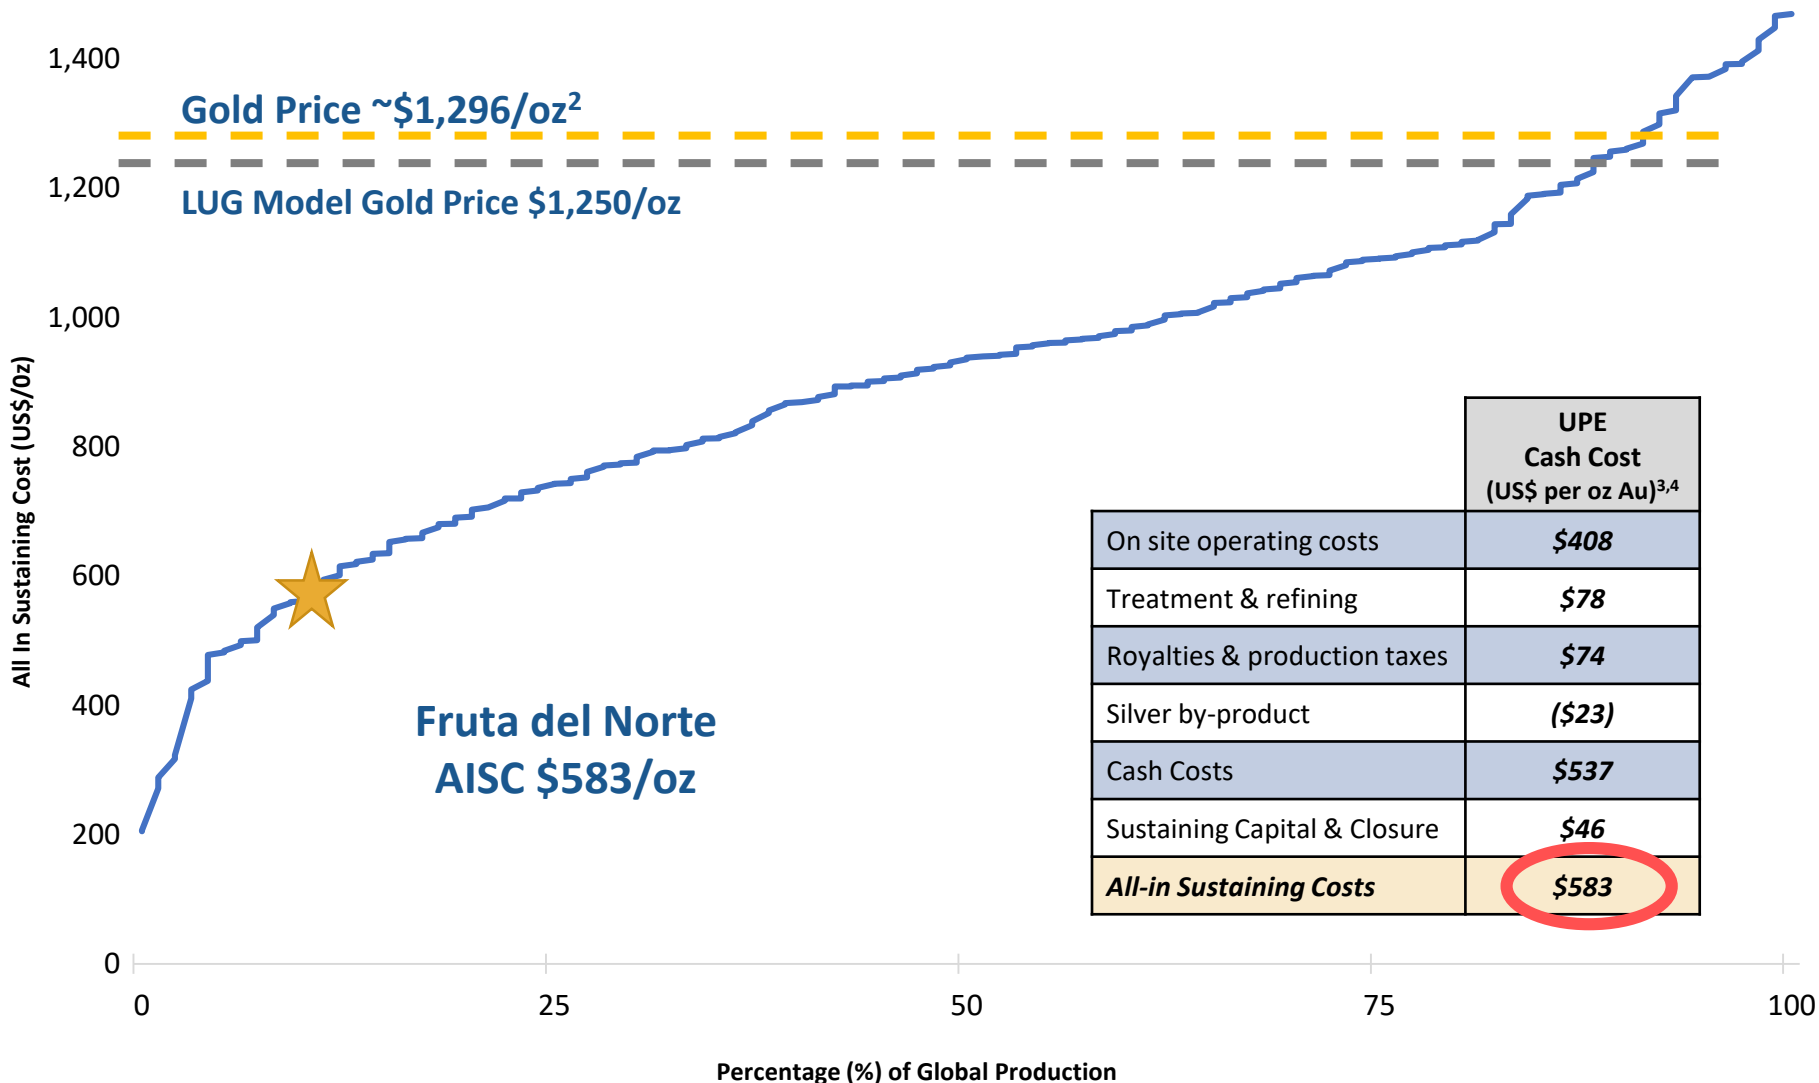

# Fruta del Norte will be the First Large-Scale Gold Mine in Ecuador

- 15 year mine life
- Average annual gold production during first 13 years expected to exceed 310,000 ozs per year
- Fruta del Norte is projected to be in the top tier of gold producers when in commercial production
  - On a production basis

# Low AISC Producer<sup>1</sup>

1. SNL Metals and Mining, public company filings
2. Bloomberg spot gold as at May 15, 2019
3. See Lundin Gold Annual Information Form dated March 27, 2019
4. Numbers may not add due to rounding

# Total Underground Advance Ahead of Target

Underground Mine Portals

- ACTUAL DEVELOPMENT AS OF April 30, 2019
- PLANNED CONTRACTOR DEVELOPMENT
- PLANNED OWNER DEVELOPMENT
- PLANNED CONTRACTOR DEVELOPMENT (NEW DESIGN)

# Mine Development as at April 2019

- Total primary and auxiliary development advance in April was 646 m versus a target of 713 m
  - Support equipment delivery delays
  - Lower owner crew ramp up than anticipated
- Priority development to the south ventilation raise is now 99 days ahead of plan
- Total mine development to end of April was 6.7 km versus a target of 6.3 km

Owner's team started February 2019

# Process Plant on Schedule

- Detailed engineering complete
- All trades active on process plant construction
- Commissioning is expected to start in Q3 2019

Aerial view of the process plant

# Major Projects on Track for Ramp Up

## Powerline

- 87 towers have been built and powerline is overall 86% complete
- Bomboiza substation detailed engineering complete and substation construction underway
- Connection to national grid expected Q3 2019
- Site-wide electrical distribution network under construction
  - Mine substation complete
  - Work progresses on the main Fruta del Norte power substation

## Tailing Storage Facility

- Construction progressing on schedule

Powerline tower

# Site-Wide Facilities in Progress

## Facilities currently in use:

- Mine dry and administration building
- Mobile equipment maintenance shop
- Mine compressor station, wash bay, fuel station
- Tailings maintenance shop
- Process plant maintenance shop

## Facilities under construction:

- Laboratory
- Reagent storage building
- Site security building

Reagent storage building

# First Gold Expected Q4 of This Year

Q1  
2019

Declines reach the orebody

Q2  
2019

First development stopes to be mined

Q3  
2019

Powerline to be connected to national grid

Q3  
2019

Tailing storage facility to be completed

Q3  
2019

Process plant to start commissioning

# Fruta del Norte Development Timeline

<b>First Ore to Mill/Commercial Production</b>														★	★	

# Fruta del Norte is Within a Major Under Explored Mineralized Trend

- 64,400 ha of exploration acreage
- Significant exploration upside potential exists
- Fruta del Norte is hosted by the Suarez pull-apart basin
  - Fruta del Norte is geologically 'special', but probably not unique
- 38 km<sup>2</sup> Suarez pull-apart basin structure is one of the most prospective epithermal Au-Ag structures in the world

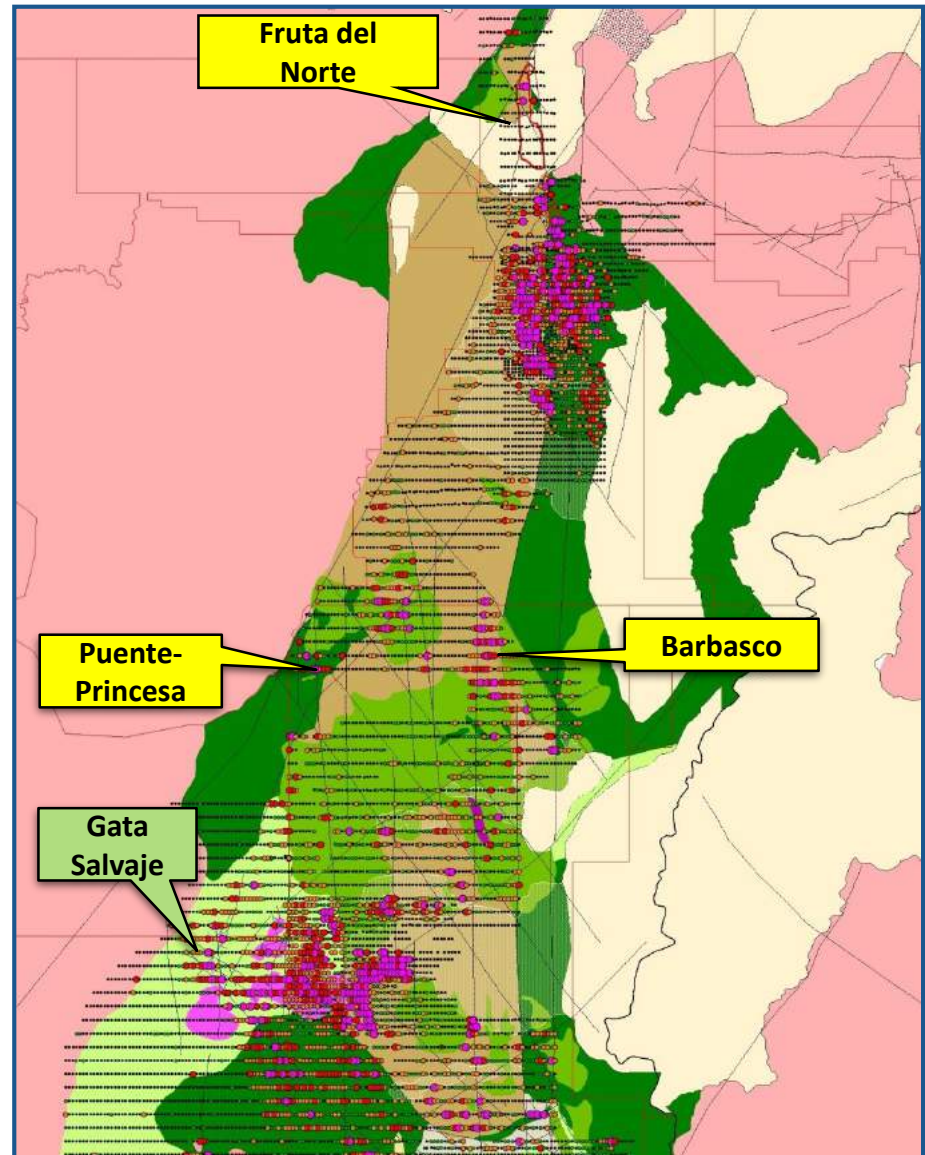

# Exploring the Suarez Pull-Apart Basin

- Only 18 holes have been drilled in the basin outside of Fruta del Norte
- Priority is to systematically explore for Fruta del Norte epithermal Au-Ag type systems
- High priority, 'drill ready' targets are:
  - Barbasco
  - Puente-Princesa
  - Gata Salvaje
- 6,000 m drill program expected to start later this year

# High Priority, 'Drill Ready' Targets Identified

## Barbasco

- Very strong 2.5 km long Sb and As soil anomaly in basin conglomerate
- Similar As:Sb ratios to Fruta del Norte – indicates similar fluid chemistry
- Streams draining Barbasco target ridge contain significant quantities of fine alluvial gold

## Puente-Princesa

- Epithermal mineralization intersected along the western basin margin during El Puma drilling
- Mineralization anomalous in Ag, Zn, Pb, As and Sb, but not Au - indicates that hydrothermal fluids circulated, but they were not gold rich

## Gata Salvaje

- Geochemistry indicates we are at a high level in the system
- Recent assay of 45.7 g/t Au from a small outcropping quartz vein north of the main anomaly and at lower elevation indicates gold rich solutions at depth

# Mining a Catalyst for Sustainable Business Development

- Community investment focuses on:
  - Local hiring
  - Local procurement
  - Economic diversification
- Local employment in action - as at April 2019, 36% of Lundin Gold staff are from the immediate local communities
- Local procurement strategy in place - in 2019 average of \$2.1 million spent per month in the province
- Ongoing engagement with a wide range of stakeholders:
  - Community risk roundtables
  - Frequent community meetings
  - Open door policy
  - Community assemblies

# Strong Shareholder Base

<b>Share Price<sup>1</sup></b>	C\$5.32
<b>Shares Outstanding<sup>1</sup></b>	222.4 M
<b>Market capitalization<sup>1</sup></b>	C\$1,182 M
<b>52 week high/low<sup>1</sup></b>	C\$5.93/C\$4.33
<b>Cash position<sup>2</sup></b>	\$83.0 M

## Major Shareholders<sup>1</sup>:

- Newcrest Mining Limited
- Lundin Family Trust
- Orion Mine Finance
- Kinross
- CD Capital
- Kopernik Global
- Mackenzie Financial
- Invesco Canada

# Re-Rate Anticipated as Company Nears Production

- LUG vs. peers on enterprise value / gold reserves basis<sup>1</sup>

# Lundin Gold is Building a Leading Gold Company

First gold expected Q4 of this year

World class asset - probable reserves of 5.02 million ounces grading 8.74 g/t Au<sup>1</sup>

Project is fully funded - capex 84% committed<sup>2</sup>

Total underground advance ahead of target

On schedule and on budget - construction 65% complete<sup>2</sup>

Fruta del Norte within a major under explored mineralized trend

# Appendix

# Ecuador is an Emerging Mining Jurisdiction

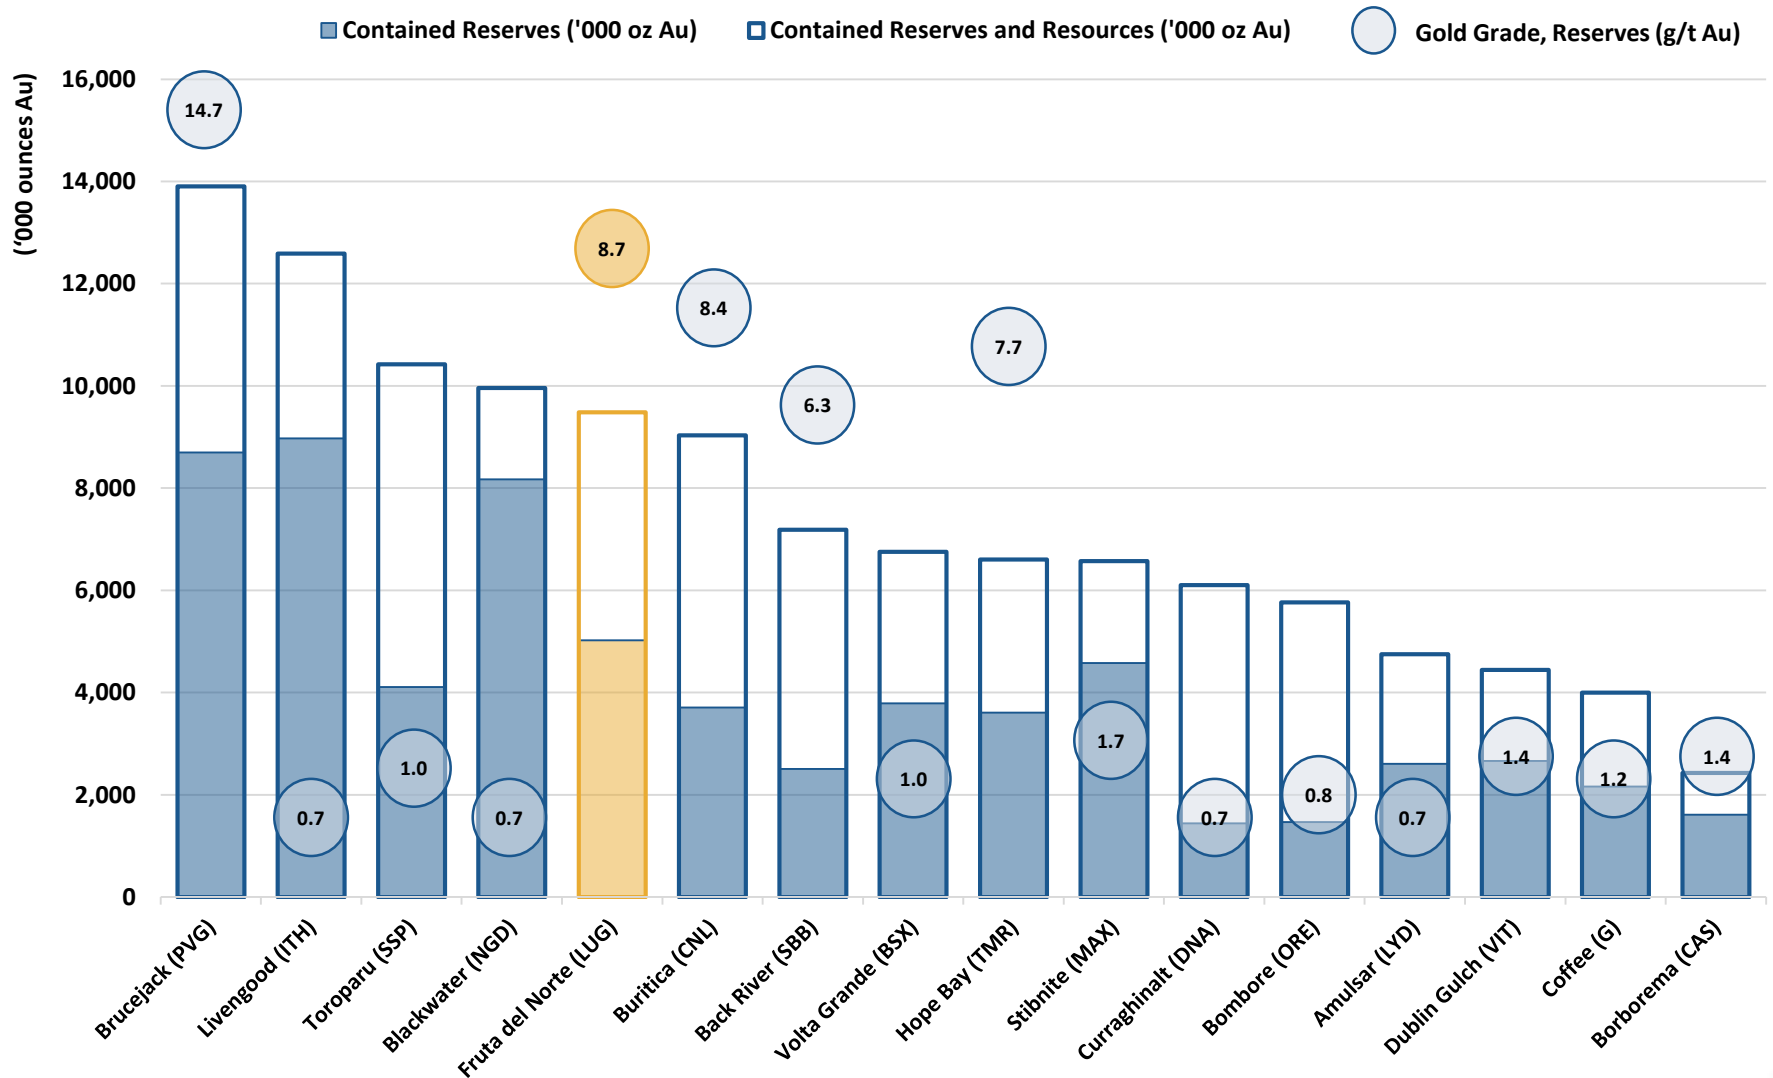

- Development of attractive mining framework has led to an influx of major mining companies

# Fruta del Norte is Among the Largest and Highest Grade Gold Projects in the World

# Project is Fully Financed

**Project finance package of \$300 million with Orion Mine Finance and Blackstone Tactical Opportunities**

**Equity Private Placement of \$400 million**

**Senior debt facility for \$350 million from lenders syndicate**

✓ ***Closed May 2017***

- Gold pre-pay term credit facility of \$150 million
- Stream credit facility of \$150 million
- Fully drawn January 2018
- Offtake agreement for up to 2.5 million ounces refined gold

✓ ***Closed March 2018***

- Newcrest investment of \$250 million
- Lundin Family Trusts investment of \$50 million
- Orion investment of \$100 million

✓ ***Closed July 2018***

- ING Capital LLC
- Société Générale
- Caterpillar Financial Services Corporation
- Bank of Nova Scotia
- KfW IPEX-Bank GmbH
- Natixis
- Bank of Montreal

# Orion and Blackstone Financing Package

- Gold pre-pay term credit facility of US\$150 million
  - Principal and interest paid over 19 quarters equivalent to 11,500 Au ounces based on spot at time of payment starting December 2020 and ending 2025
- Stream credit facility of US\$150 million
  - Cash equivalent of 7.75% of Au ounces and 100% of Ag ounces based on spot at time of payment less US\$400/ounce Au and US\$4.00/ounce Ag starting December 2020, capped at 350,000 ounces Au and 6.0 million ounces Ag
  - Option to buy back 50% of the stream in June 2024 and 50% in June 2026
- Offtake agreement for up to 2.5 million ounces refined gold

# Government Agreements

The Company has all the major agreements and permits with the Government of Ecuador for commencing development of the Project

Both the Exploitation Agreement and the Investment Protection Agreement were signed in December 2016

- **The Exploitation Agreement** sets out the rights and obligations of the Government of Ecuador and Aurelian as mining concessionaire with respect to the Project and incorporates:
  - Term – affords the mining concessionaire the right to develop and produce gold from the Project for 25 years
  - Fiscal Terms – describing royalties, windfall tax and sovereign adjustment mechanisms
  - Security – acknowledges the financing requirements and provides the ability and authorisation to grant security
  - Enforcement – provides acknowledgement that the Lenders are entitled to foreclose without authorisation from the mining concessionaire or the Government of Ecuador
  - Dispute Resolution Procedures – arbitration under UNICTRAL rules (in Santiago, Chile)
- **The Investment Protection Agreement** primarily deals with tax and mining regulatory stabilisation and other investment protection mechanisms. Key benefits include:
  - Income tax rate fixed at 22%
  - Exemption from the capital outflow tax of 5% on payments of principal and interest to financial institutions outside of Ecuador
  - The ability to obtain benefits granted by the Government of Ecuador through future investment protection agreements with other investors in similar projects in Ecuador
  - No restrictions to transfer or assign all or part of the investment, including the right to assign its rights to any financing parties
  - Other benefits granted to Aurelian include no restriction to:
    - produce and sell minerals;
    - import and export goods; and
    - establish, maintain, control, or transfer funds abroad, provided statutory remittances and obligations have been met

# Major Construction Permits and Agreements in Place

- Received Environmental License for Fruta del Norte in October 2016
- Exploitation and Investment Protection Agreements signed in December 2016
- MEER powerline construction agreement and CELEC cooperation agreement signed in December 2018
- Mountain Pass Quarry Exploitation Agreement signed in December 2018

Construction Camp

# Non-Executive Board of Directors

## Lukas Lundin – *Chairman*

- 37 years of recognizing value and superior global investment opportunities in the natural resource sector
- Pursuit of highly prospective properties around the world has resulted in numerous resource discoveries, including the multi million-ounce Veladero gold discovery
- Has led several companies through highly profitable business acquisitions and mergers such as Lundin Mining Corporation's \$3.3 billion merger with EuroZinc Mining

## Carmel Daniele

- Founder and CIO of CD Capital UK Ltd., the fund manager of a number of private equity and mining funds
- 25 years of natural resources investment experience, 10 years of which were spent with Newmont Mining/Normandy

## Chantal Gosselin

- 25 years of combined experience in the mining industry and capital markets
- Has held positions as VP and PM at Goodman Investment Counsel and Senior Mining Analyst at Sun Valley Gold LLP, as well as various mine-site management positions in Canada, Peru and Nicaragua

## Craig Jones

- Executive General Manager of Newcrest Mining's Wafi-Golpu project in Papua New Guinea
- Has been with Newcrest Mining since 2008 and has held a number of senior management positions including General Manager Projects, Executive General Manager Projects and Asset Management, and Executive General Manager at many of Newcrest Mining's operations

## Michael Nossal

- Chief Development Officer of Newcrest Mining
- Has more than 30 years of resource industry experience in Australia and internationally and has worked extensively in the gold sector and base metals

## Ian Gibbs

- Canadian chartered accountant that has held a variety of prominent positions with Lundin Group of companies, currently serving as CFO of Africa Oil Corp.
- Former CFO of Tanganyika Oil, where he played a pivotal role in the recent \$2 billion acquisition by Sinopec International Petroleum

## Ashley Heppenstall

- Lead Director of Lundin Gold since 2015
- Has worked with Lundin Group public companies since 1993, most recently as the President, CEO and Finance Director of Lundin Petroleum AB

## Paul McRae

- Global reputation in project and construction management in the mining industry for both surface and underground projects of all scales and complexities, and was most recently responsible for the successful development of Lundin Mining's Eagle Mine in Northern Michigan

## Istvan Zoelli

- Portfolio Manager at Orion Mine Finance, a mining-focused investment business providing flexible capital investment solutions to mining companies in the base and precious metals sector
- Has international finance experience and been responsible for investments in mining, oil/gas and power companies

# Management Team with Extensive Mining Experience

## **Ron F. Hochstein - *President, CEO & Director***

- 35 years in the mining industry, including more than 20 year working with the Lundin Group
- Worked with a number of resource companies, most recently as President and CEO of Denison Mines Corp. from 2009 to 2015

## **Alessandro Bitelli - *EVP, CFO***

- 35 years experience in the resource industry and in public accounting, both in Europe and North America
- Former CFO of Redback Mining, which was acquired by Kinross in 2010 for \$9.2 billion

## **David Dicaire - *VP, Projects***

- 35 years in the mining, engineering and construction industry, leading both Owners and EPCM teams on a variety of global projects
- Project Director for Freeport McMoRan's US\$4.6 billion Cerro Verde Expansion Project in Peru, and previously worked on Agua Rica Mine in Argentina (Glencore, prev. Xstrata) and Quellaveco Mine in Peru (Anglo American)

## **Nathan Monash - *VP, Business Sustainability***

- 15 years experience in resource business sustainability
- Worked extensively with the IFC, guiding extractive industry clients on the structure and implementation of sustainable development strategies

## **Xavier Ochoa - *General Manager***

- 30 years experience in mining and engineering roles at projects across North and South America
- Most recently worked for McEwen Mining as their Chief Operating Officer and worked at their Goldbar (Nevada) and Fenix (Mexico) mines

# Project Team with Global Mine Development Experience

## Louis Gignac

Project Advisor

- Rosebel Mine, Suriname (IAMGold)
- Essakane Mine, Burkina Faso (IAMGold)
- Omai Gold Mine, Guyana (Mahida Gold, prev. IAMGold)

## Meredith Arnould

Project Business Manager

- Cerro Verde Mine, Peru (Freeport McMoRan)
- Mount Milligan Mine, Canada (Centerra, prev. Thompson Creek)
- Endako Mine, Canada (Centerra, prev. Thompson Creek)

## William Matheson

Construction Manager

- Yanacocha Mine Phase 1, Peru (Newmont)
- Carlota Mine, USA (KGHM International)
- Sierra Gorda Mine, Chile (KGHM International)

## Murray Wright

Supply Chain Manager

- Kansanshi Mine, Zambia (First Quantum)
- Tasiast Mine, Mauritania (Kinross)
- Otjikoto Mine, Namibia (B2 Gold)

## Matt Gignac

Project Director

- Rosebel Mine, Suriname (IAMGold)
- Merian Mine, Suriname (Newmont)
- Mouska Mine, Canada (IAMGold)

## Doug Moore

Mine Development Manager

- Carlin East Mine, USA (Newmont)
- Buckhorn Mine, USA (Kinross)
- Lac des Iles Mine, Canada (North American Palladium)

## Juan Carlos Contreras

Mill Manager

- El Peñón Mine, Chile (Yamana)
- Can Can Mine, Chile (COPEC S.A.)
- Tambo de Oro Mine, Chile (HMC Gold)

# Mineral Resources

## NI 43-101 Mineral Resources - Mineral Resources, inclusive of Mineral Reserves as at December 15, 2015

Category	Tonnage (M t)	Grade (g/t Au)	Contained Metal (M oz Au)	Grade (g/t Ag)	Tonnage (M oz Ag)
Indicated	23.8	9.61	7.35	12.9	9.89
Inferred	11.6	5.69	2.13	10.8	4.05

### Notes:

- 1) The Qualified Person for the estimate is Mr. David Ross, P.Geo., an employee of RPA. The estimate has an effective date of 31 December, 2015.
- 2) Mineral Resources are reported inclusive of Mineral Reserves; Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
- 3) Mineral Resources are reported at a cut-off grade of 3.5 g/t Au; which was calculated using a long term gold price of US\$1,500/oz.
- 4) Mineral Resources are constrained within underground mineable shapes that assume a minimum thickness of 2 m; metallurgical recovery of 94%; total operating costs of US\$145/t milled (mining cost of US\$60/t milled; process costs of US\$35/t milled; G&A costs of US\$15/t milled; surface infrastructure costs of US\$28/t milled; concentrate transport and treatment costs of US\$7/t milled); royalties of US\$71/oz and selling costs of US\$65/oz.
- 5) Numbers may not add due to rounding.
- 6) For information with respect to the key assumptions, parameters and risks associated with the results of the Technical Report for the Project, the Mineral Resource and Mineral Reserve estimates included therein and other technical information, please refer to the Technical Report.

# Mineral Reserves

Probable Mineral Reserves <sup>(1)</sup>			
	Technical Report	PPR <sup>(2)(3)(4)(5)</sup>	UPE <sup>(2)(3)(4)(5)</sup>
<b>Mt</b>	15.5	16.8	17.8
<b>Au (g/t)</b>	9.67	9.16	8.74
<b>Au (Moz)</b>	4.82	4.94	5.02
<b>Ag (g/t)</b>	12.7	12.6	12.1
<b>Ag (Moz)</b>	6.34	6.79	6.95

- 1) Except as set out below, the assumptions, parameters and risks associated with the results of the Technical Report for the Project, the Mineral Resource and Mineral Reserve estimates included therein, the PPR and the UPE, are as set out in the Technical Report.
- 2) All Mineral Reserves in this table are Probable Mineral Reserves. No Proven Mineral Reserves were estimated.
- 3) PPR estimates are as at MY 30, 2017 and UPE estimates are as at September 19, 2018.
- 4) Mineral Reserves were estimated using key inputs listed in the table below:

Key Inputs for Mineral Reserve Estimate	PPR	UPE
Gold Price (\$/oz)	1,250	1,250
TS (\$/t)	57	48
Overhand D&F (\$/t)	79	81
Underhand D&F (\$/t)	85	71
Process, Surface Ops, G&A (\$/t)	58	58
Dilution Factor (%)	10	10
Concentrate Transport & Treatment (\$/t)	9	9
Royalty (\$/oz)	71	71
Gold Metallurgical Recovery (%)	91.7	91.7

- 5) Gold cut-off grades for the different mining methods are listed in the table below:

Gold Cut-off Grade (g/t)	PPR	UPE
Transverse Stope	4.1	3.8
Overhand D&F	4.8	5.0
Underhand D&F	5.1	5.0

Note: An increased cut-off grade was used in the PPR Overhand D&F for the initial years of 6.5 g/t.

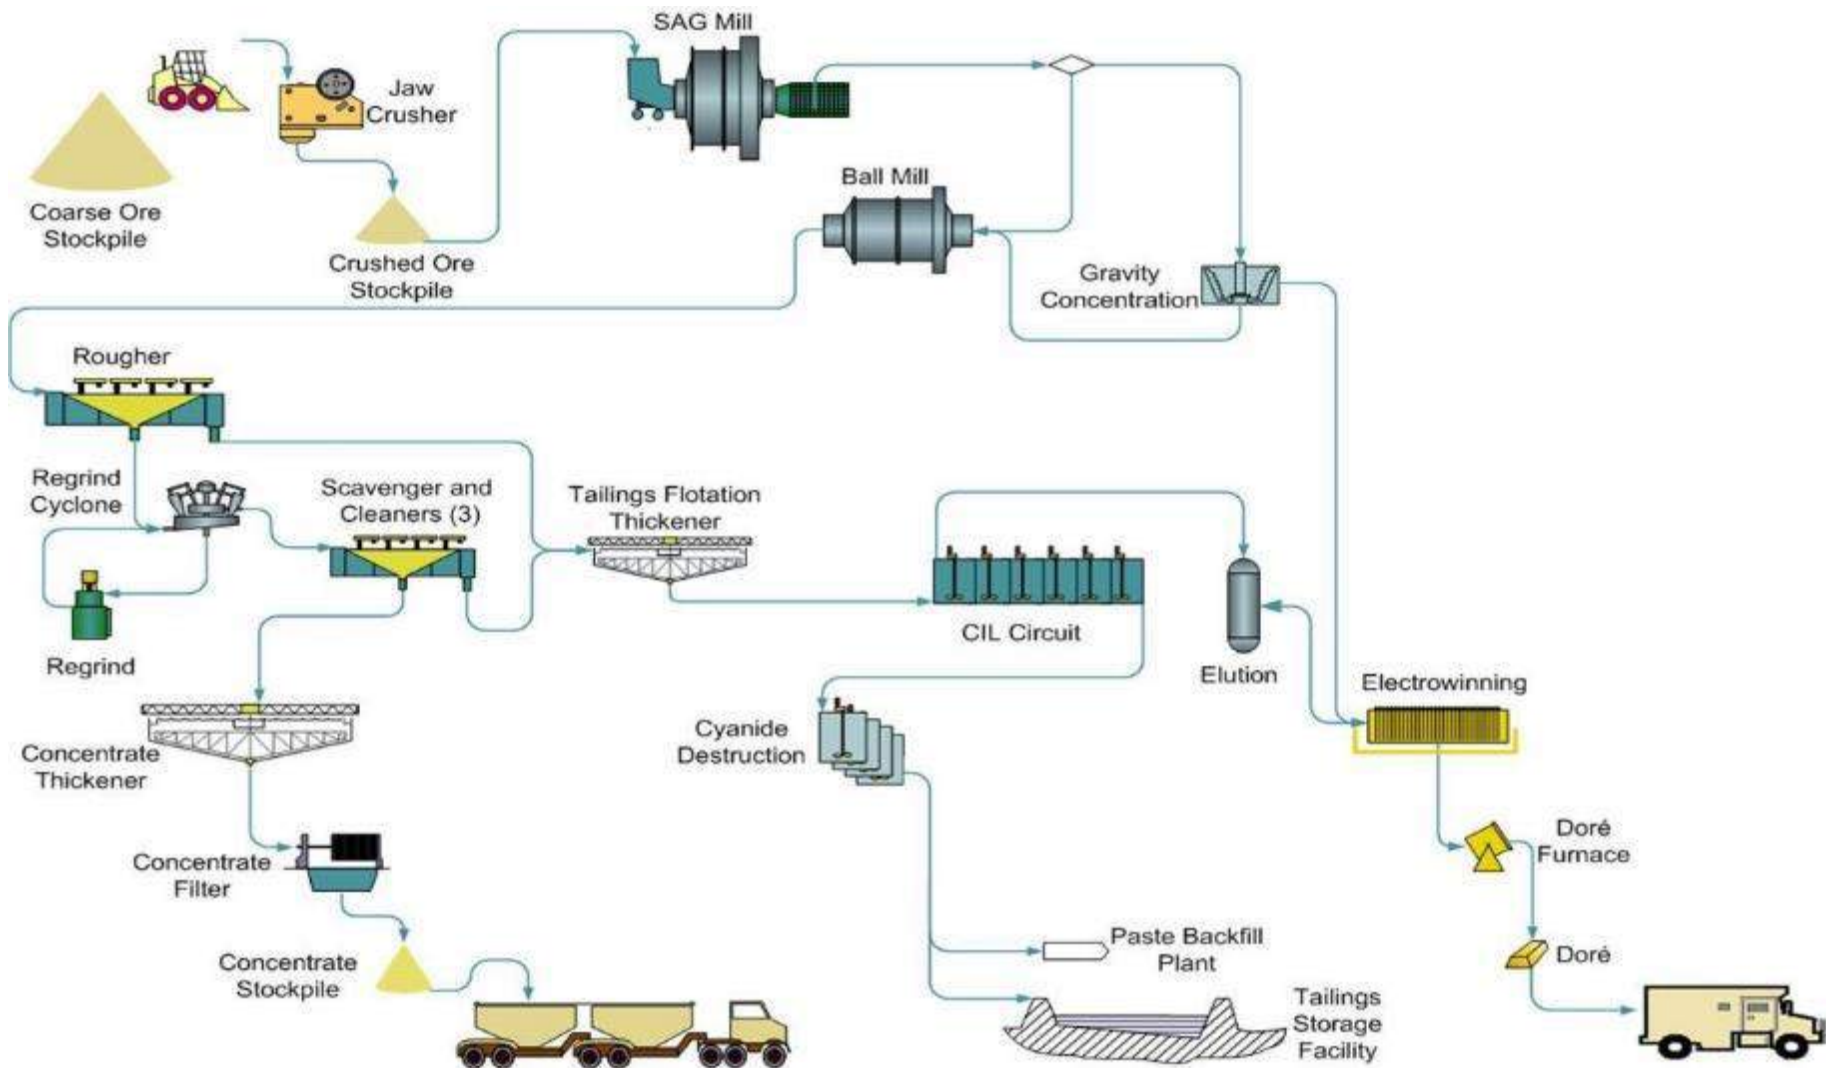

- 6) The average silver metallurgical recovery is 81.6%. The silver price assumption was \$20/oz. Silver was not considered in the calculation of the cut-off grade.
- 7) Tonnages are rounded to the nearest 1,000 t, gold grades are rounded to two decimal places, and silver grades are rounded to one decimal place. Tonnage and grade measurements are in metric units; contained gold and silver are reported as thousands of troy ounces.
- 8) Rounding as required by reporting guidelines may result in summation differences.

# Life of Mine Operating Cost by Area

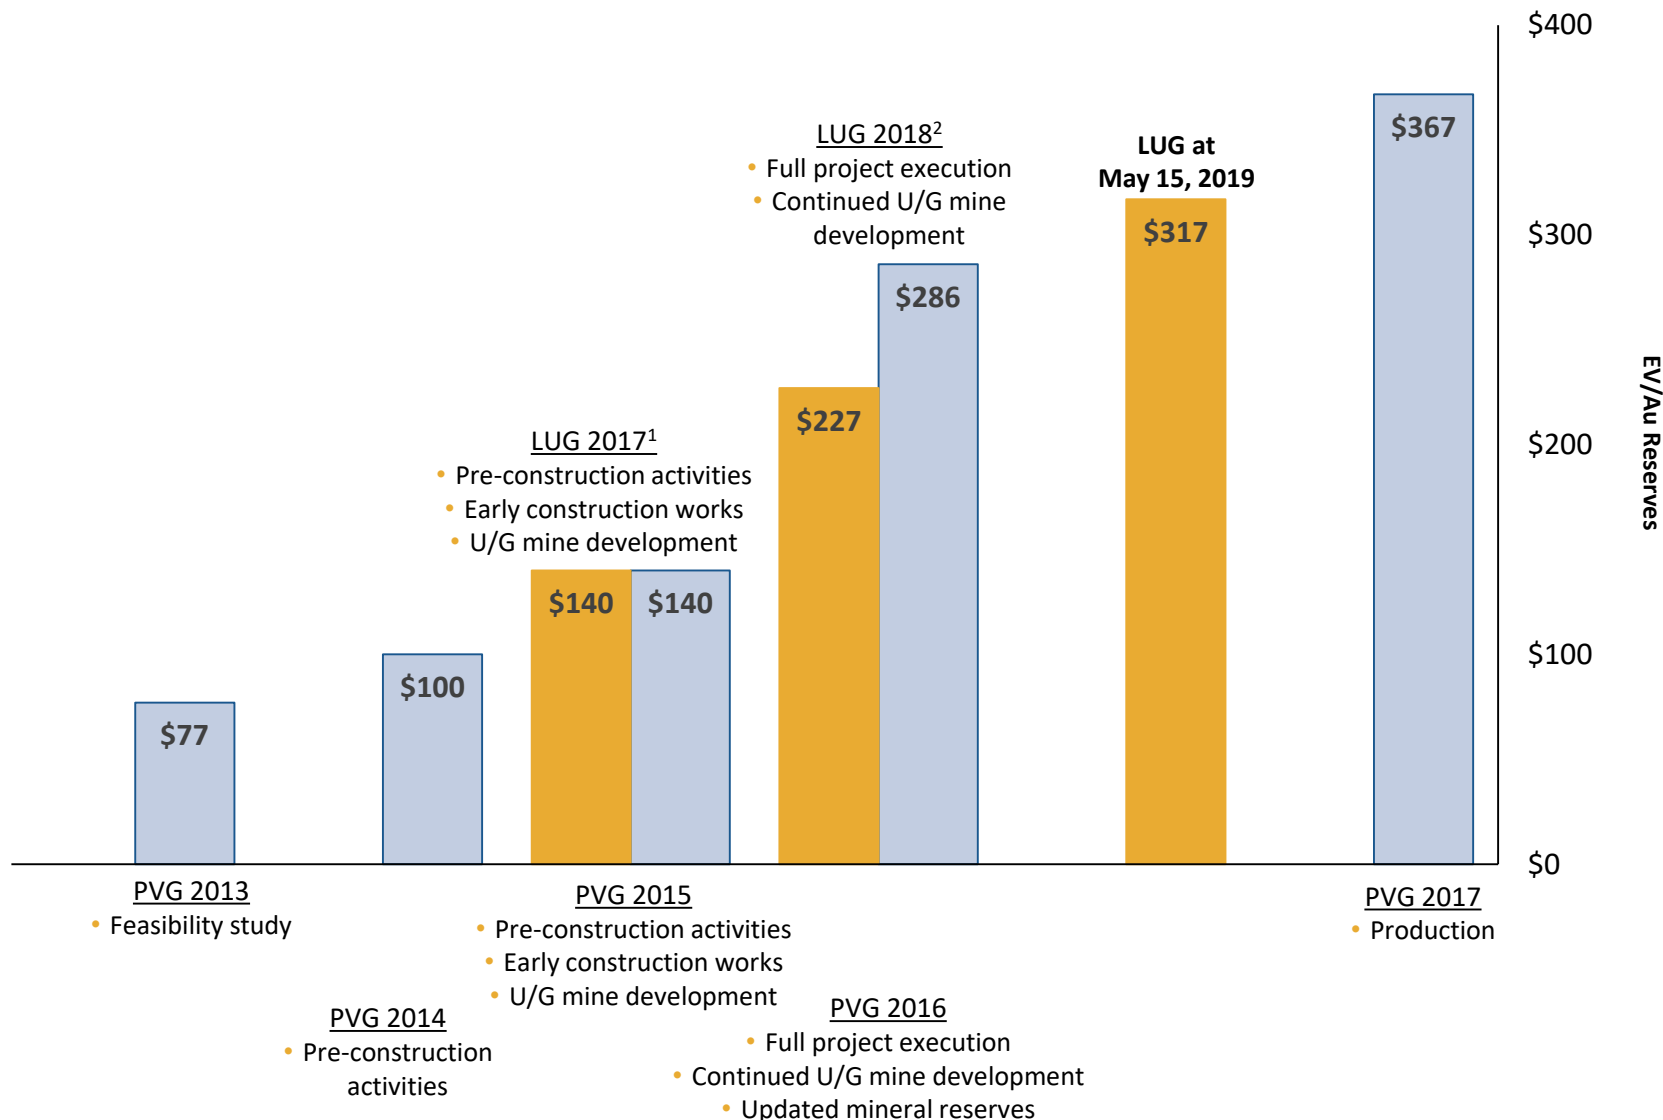

Area	UPE Cash Cost (\$/t)	UPE Cash Cost (\$/oz Au payable)
Mining	47.85	188.40
Process	27.60	108.71
Surface	6.17	24.32
General & Administration	22.02	86.74
<b>Total Operating Cost</b>	<b>103.65</b>	<b>408.20</b>

# Simple Process Plant Flowsheet

# Lundin Gold Valuation Potential

# Local Employment in Action

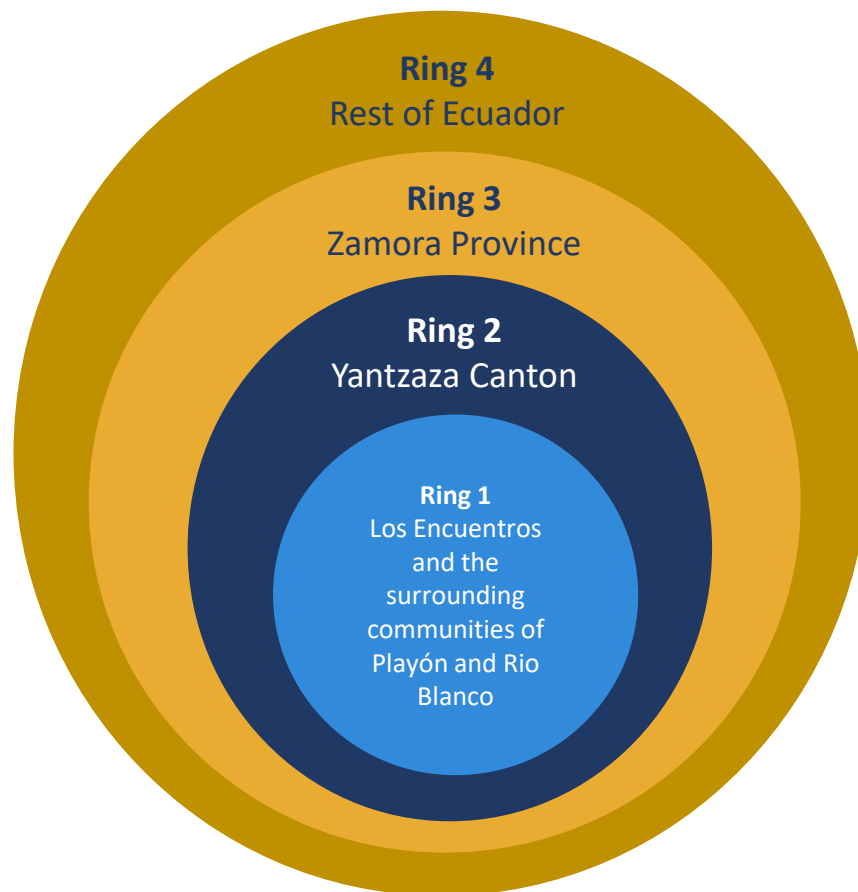

**Lundin Gold Staff as at April 2019**

	#	%
Ring 1	527	23%
Ring 2	292	13%
Ring 3	249	11%
Ring 4	954	42%
Ex-Pat	243	11%
<b>Total</b>	<b>2,265</b>	<b>100%</b>

**Contractor Staff as at April 2019**

	#	%
Ring 1	268	18%
Ring 2	151	10%
Ring 3	143	9%
Ring 4	914	60%
Ex-Pat	52	3%
<b>Total</b>	<b>1,528</b>	<b>100%</b>

# Local Procurement

- Jointly-defined local procurement strategy:
  - Definition of local and meaning of “prioritization” in procurement process
  - Reserve List
  - Certification process is first step, with ongoing support
  - Number of local suppliers approximately 300

Local Purchasing Lundin Gold (AESA + AMSA)  
Payments Made

# Analyst Coverage
